ABOUT ME

Aspiring Data Analyst with a strong foundation in data analysis, database management, and problem-solving. Skilled in SQL, Python (Pandas, NumPy), Excel, and Power BI (beginner) for data processing and visualization. Experienced in working with structured datasets and improving workflow efficiency through system-based solutions. Seeking an opportunity to apply analytical skills and contribute to data-driven decision-making.

EDUCATION

B.Tech – Computer Science & Engineering | Malla Reddy College of Engineering for Women, JNTUH | 2022–2026 | CGPA: 8.0

Intermediate (MPC) – Sri Chaitanya Jr. College | 2020–2022 | Percentage: 77%

SSC – Brahman Talent High School | 2019–2020 | GPA: 10.0

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy)

Database: SQL (Queries, Joins)

Tools: Excel, Power BI

Data Visualization: Matplotlib

Core Concepts: Data Cleaning, Basic Statistics, Machine Learning

Other: SDLC

ACHIEVEMENTS & CERTIFICATIONS

- Finalist – Smart India Hackathon (E-Waste Management Solution)
- Certified in multiple NPTEL courses – Programming & Technology

PROJECTS

Enhancing IoT Data Security using Proxy Re-encryption on Blockchain — 2026

- Developed a system to secure IoT-generated data using proxy re-encryption techniques.
- Implemented blockchain concepts to ensure secure data storage and controlled access.
- Improved data integrity and prevented unauthorized access through encryption methods.

AI Powered Missing Child Identification System — 2025

- Developed an AI-based system to identify missing children using image data.
- Processed datasets using Pandas and NumPy.
- Implemented SVM and deep learning techniques.
- Visualized results using Matplotlib.

University Management System — 2024

- Developed a web-based system for student applications and exams
- Managed data using SQL and JDBC.
- Improved efficiency by digitizing workflows.
